

The mission of the Center for Independence is to help children and young adults with disabilities achieve their highest level of independence in the home, school, community and workforce. We provide therapy programs that develop life skills and motor function in a manner that promotes self-reliance and an "I Can!" attitude. Committed to breaking down barriers to employment, the Center also provides job linkage and placement for young adults with varying disabilities through our innovative program, Working Together Chicago.

A Note from the Director

Dear Friends,

As I reflect on the past year, I'm filled with pride and gratitude. Because of your support, the Center for Independence **served over 965 children, adults, and family members**—empowering them through therapy, employment programs, and vital family support services.

We expanded our Parent Education Workshops, helping parents feel more confident and less stressed while navigating the challenges of caregiving. We also provided **\$1.185 million in charitable care**, ensuring no one was turned away due to cost.

None of this would be possible without our dedicated staff, volunteers, and generous supporters like you. Every milestone reached—a first step taken, a first job secured, a newfound confidence achieved—is a testament to the belief you have placed in us and the abilities of those we serve.

Together, we are creating real, lasting change and building a future where **independence is possible for all**.

My heartfelt thanks,
Patti Herbst
Executive Director

Client Testimonials

We cannot thank you enough for welcoming our daughter so warmly and doing such incredible work with her. **She is walking thanks to you**, and we are so grateful!
-Countryside Mother of 3 year old

My little brother has autism, and he has been employed through Working Together Chicago for 5+ years now. **His job has changed the trajectory of his life.** It gives his life purpose, structure, and allows him to interact with people he would certainly not meet without his job.
-Brother of WTC Participant

My son has not only increased his strength, **his confidence has grown!** He cried during the evaluation, and we were so worried about how he'd adjust. After just a few months, he's more confident and able to regulate himself in new spaces and situations. I'm forever grateful for everything CFI has done for my son and am looking forward to the future!
-Center Parent, 2 year old

The Center has been a bright light in our time of unknown. From the amazing therapists that become like family to the solidarity that comes with finding friendship in fellow disability families within the center to the well thought out workshops that help navigate our family's well-being. **This place is like no other.**

Putting People to Work!

Last May, our Working Together Chicago team brought four job seekers with disabilities to a local hiring event—and **all four were offered jobs on the spot**. Three accepted positions with Aramark and are now thriving in their new roles. With the support of Aramark's inclusive team, they've gained not just employment, but confidence, independence, and a real sense of belonging. It's moments like these that remind us what true inclusion can mean—for individuals, their families, and our entire community.
